Accretion Analogy Assignment

Group Names:

Objective: To create a poster that illustrates the concept of accretion.

Accretion: The process of growth or increase, typically by the gradual accumulation of additional layers or matter.

Instructions: As a group, create a poster that illustrates an analogy to the concept of accretion. Be creative! I'll give you an example below, but you need to come up with something else. Justify your choice below.

Example: Accretion is the gradual growth by buildup of matter. A poster of children creating a snowman would be an analogy of accretion because as you build a snowball, snow sticks to other snow and it grows bigger.

Complete as a group:

Our analogy:

Why we think this is a good analogy for accretion:
